## ARTS DISTRICT LITTLE TOKYO'S UNIQUE AND DISTINCT TREES

Noteworthy trees may represent iconic species, display a unique growth form, or stand out for their size at maturity. These trees provide significant benefits to the neighborhood council district and are listed below.

### Indian Laurel Fig (*Ficus microcarpa nitida*) Abundant Species

Indian laurel fig is a common street tree that reaches a spread of 40 ft. It has a oval or rounded shape, evergreen foliage, smooth grey bark. The fruits attract birds.

### Pink Trumpet Tree (*Handroanthus heptaphyllus*) Abundant Species

The common name, pink trumpet tree, describes the striking pink flowers that bloom in spring or winter. Pink trumpet tree is briefly deciduous, has a round shape, and reaches a spread up to 25 ft.

### Eastern Redbud (*Cercis canadensis*) Abundant Species

Eastern redbud is known for its showy, pink flowers in the spring. Redbuds have attractive, heart shaped leaves that turn yellow in the fall. This species can reach a height and spread up to 35 ft.

### African Fern Pine (*Afrocarpus falcatus*) Abundant Species

African fern pine has a rounded shape and can reach a height of 65 ft. This unique species is one of few conifers originating from Africa. It produces fleshy, green to yellow colored cones that resemble stone fruits.
